

# Jet Step

Ambidextrous Foot Ascender | Dual Toothless Cams

## FEATURES & BENEFITS

- Unique dual cam design results in lower spring tension and reduced drag
- Toothless cams eliminate virtually all rope wear and provide increased grip strength on wet, muddy and frozen ropes
- Lower drag from decreased spring tension provides efficient self-tending of the climbing line
- Ambidextrous
- Fairlead prevents kicking out while still allowing for easy rope install and removal
- Y shaped stirrup reduces strap migration
